Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 September 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Zmarlicki for reasons of record.

Applicant has amended the claims to set forth the minimum amount of vegetable fat in the composition. But the claims are open to the inclusion of other ingredients, such as water. So the claims still read on the reference. If applicant desires to set forth a composition containing fat as a primary ingredient, then the claims should be amended to set forth this feature.

Claims 6 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Zmarlicki as further evidenced by Desrosier for reasons of record.

Applicant has amended the claims to set forth the minimum amount of vegetable fat in the composition. But the claims are open to the inclusion of other ingredients, such as water. So the claims still read on the

reference. If applicant desires to set forth a composition containing fat as a primary ingredient, then the claims should be amended to set forth this feature.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-8 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wieske in view of Hollow for reasons of record.

Applicant argues that Wieske does not disclose sunflower lecithin. Applicant also urges that Hollo does not disclose sunflower lecithin as having any utility in margarine preparation. Surely one of ordinary skill in the art would be permitted to look for alternative sources of lecithin when preparing a surface-active composition. The cost and availability of edible oil must always be a factor in food manufacture. Hollo provides this additional option. Applicant urges that Hollo is testing the sunflower lecithin in animal feed. But food additives must always be tested for safety. Examiner disagrees that there would be no incentive to substitute

sunflower lecithin for soybean lecithin. The aspect of being "suitable for shallow frying" does not add patentable weight to the composition because it is an intended use. Preamble limitations do not alone add patentable weight to product claims.

Claims 14-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 17 is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory

period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carolyn A Paden whose telephone number is (571) 272-1403. The examiner can normally be reached on Monday to Friday from 7 am to 3:30 pm.
